

N4 Active Travel Collooney to Castlebaldwin Scheme

Phase 2: Options Selection Public Consultation No. 2

Introduction

Sligo County Council, through the Sligo Regional Design Office, are in the early stages of planning the N4 Active Travel Collooney to Castlebaldwin Scheme.

The overarching objective of this Scheme, which is funded by Transport Infrastructure Ireland (TII), is to provide continuous pedestrian and cycle (i.e., Active Travel) facilities from Collooney to Castlebaldwin that will improve safety and accessibility for all. It is envisaged that the Scheme will integrate with the wider Active Travel network including the Sligo Greenway, the SLNCR Greenway and existing facilities from Toberbride Business Park to Doorly Td, improving local and regional connectivity.

DBFL Consulting Engineers have been appointed by Sligo County Council to provide multi-disciplinary engineering and other specialist services to progress this Scheme through Phase 2 to 4 (Options Selection to Statutory Processes) of TII's Project Management Guidelines.

What's Happening Now?

The Scheme is currently at Phase 2, entitled 'Options Selection'. The purpose of Phase 2 is to examine feasible route options to determine a Preferred Option.

Online Public Consultation

Public Consultation for this project will take place from **Monday 26th February to Friday 22nd March 2024**. The consultation is being held online through a public consultation portal which is accessible at the following website: <https://consult.sligococo.ie/browse>. It will contain all the information that will be displayed at the in-person public consultation event. Submissions of comments or queries can be made either via the online consultation portal, or via the project's Feedback Form.
