T1 Wild Grasses

Existing
To be freed of Gorse, Rosa Rugosa, Brambles & Bind weed
A self-regulating area requiring minimal intervention other than minimising recurring invasive species encroachment.

FAOIN AER LANDSCAPE STUDIO

T2 Mixed Grasses & Shrubs & Hardy Perennials

New Ornamental Plantings.
A new wave of mixed ornamental grasses are to be established in order to both key into the local dune-scape below and surrounding meadows of the agricultural hinterland. They will be thoughtfully interwoven with evergreen shrubs and hardy perennials for year-round interest.

T3 Structure Planting

New Edge Planting
Low Clipped Hedging

T4 Living Wall

New Evergreen Climbers to Wall; habitat & shade

T5 Selected Ornamentals Planting

New Selected Plantings to new built interventions. Site specific to enhance the experience at the new built resting points
